

## Feedback grid

This framework provides a simple but effective way to get constructive criticism from other people. By structuring the feedback into four categories and having people put it in writing, you will receive a clearer and more thoughtful critique. It's much better than simply asking people, "What do you think about this?"

The aim of a handwriting digit recognition system is to convert handwritten digits into machine readable formats. The main objective of this work is to ensure effective and reliable approaches for recognition of handwritten digits and make banking operations easier and error free.
